Q. How is a Salary Statement different from a Pay Slip ?

A. A Salary Statement is a document that provides a detailed breakdown of an employee's earnings and deductions over a specific period. It typically includes information such as gross pay, taxes, and other deductions. A Pay Slip, on the other hand, is a document that provides a summary of an employee's earnings and deductions for a single pay period. It typically includes information such as gross pay, net pay, and the date of payment.
